

CAPABILITY STATEMENT

PRIME KUVIO LLC

building the future together

COMPANY OVERVIEW

Prime Kuvio LLC is a Houston-based, veteran-owned energy and infrastructure firm providing energy consulting, compliance advisory, and EPC services.

CORE SERVICES

Strategic Energy Services

- Energy Audits & Utility Infrastructure Planning
- Predominant Use Studies for Tax Exemption
- Renewable Procurement Strategy
- Utility Tariff & Interconnection Review
- Engineering Services

Energy Sustainability & Risk Management

- Energy Efficiency Retrofits (Lighting, HVAC, Controls)
- ESG Strategy & IRA Compliance Advisory
- Prevailing Wage, Apprenticeship, and Domestic Content Audits

Renewable Energy + EPC Services

- PV + BESS Feasibility & Design in Oversight
- DER, Genset, and Microgrid Integration
- Black Start, Load Shedding & Islanding Strategy
- Civil & Electrical EPC Deployment
- Preventive & Corrective Maintenance

Support services

- Owner's Rep & Developer Support
- Interconnection & Permitting Management
- RFP/RFQ Development Assistance
- Monitoring and O&M

PAST PERFORMANCE

- Delivered **64.7 MWDC** across **90 solar projects** in North America, Central America, and the Caribbean.
- Managed a portfolio of **20+ rooftop systems (17+ MWDC)** across Mexico (retail, warehouses, logistics).
- Standardized design & installation practices; coordinated multi-EPC design, construction supervision, and QA for long-term reliability.
- Led a **C&I Regional Program (17.5 MWDC)** across **7 countries**, delivering **10–15% energy-cost savings** per site.
- Directed a **C&I rooftop portfolio (29.2 MWDC)** across Mexico with full technical oversight and scalable execution processes.
- Ongoing: feasibility studies, interconnection analysis, and turnkey **solar + BESS** solutions for C&I customers in the US Midwest.

NAICS CODE

Primary Code:

- 541690 Energy Consulting Services

Other Relevant Codes:

- 221114 Solar Electric Power Generation
- 237130 Power & Communication Line Construction
- 541330 Engineering Services
- 236220 Commercial & Institutional Building Construction
- 541611– Administrative Management and General Consulting Services

CERTIFICATIONS

- **SDVOSB**
- **HUBZone-Certified**
- **Texas HUB (State)**
- **Pending: 8(a), MBE, DBE**

CORE VALUES

- **Accountability** – Veteran-led delivery rooted in discipline and clarity
- **Strategic Focus** – Solutions aligned with policy, regulation, and long-term value
- **Resilience** – Clean energy and infrastructure that endure
- **Integrity** – Evidence-based, compliance-first service
- **Empowerment** – A workforce built for the future through training and inclusion

COMPETITIVE ADVANTAGES

- **Integrated PV + BESS Expertise:** Combines electrical engineering and economic modeling to optimize system design, rate structures, and ROI for distributed energy projects.
- **Commercial-Grade Analytics:** Uses advanced financial and performance modeling to quantify value streams from demand charge reduction, resilience, and energy arbitrage.
- **End-to-End Project Insight:** Supports developers and owners through feasibility, interconnection, and procurement to streamline timelines and reduce soft costs.
- **Flexible Engagement Model:** Offers technical consulting or turnkey partnership structures that align incentives and reduce customer risk.
